

LIBRARY AND INFORMATION CENTER

Library is an integral part of our Academic Centre of Excellence for Teaching and Learning. This COE is designed to assist multidisciplinary curriculum and concept centric demonstrations concerning practices and programs that promote teaching and learning skills among faculty and students; and to research to improve innovation

Many new dimensions have been added to the library. Electronic information resource as an important component of the library in growing year after year. The computer has swept the library in all it is operations-storage and dissemination of information. The college is satisfied on the achievements of the library.
